DURAN COFFEE TABLE

UNITED STATES | BOROSILICATE GLASS, SILICON BRONZE | 53 W x 58 D x 13 H IN

CONDITION

Overall very good condition. 1-inch shallow flake to the underside of one glass top near one corner and a smaller flake to the adjacent corner. Each panel of borosilicate glass top with a line that runs across 4 inches from the bull nose end, lightly visible, in the making, but it does not detract from the aesthetic and formal qualities of the table.
